In paragraph [0020], 10/808,593 must be inserted. In paragraph [0022], 10/808,597 must be inserted.

In accordance with M.P.E.P. §724, applicants will be permitted to file a petition to expunge the above materials, as provided according to MPEP §724.05.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Kelly.

Note shelf 14 which inherently acts as a changing table, col. 2, line 66 (Bassinnet 16) and various mounting means in col. 3, lines 6-15.

Claims 1, 4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Massie or Hayward.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Massie or Hayward, teaching applicant's basic device, but not the use of adjustable uprights, in view of Vuowg et al, teaching the use of conventional adjustable uprights with a changing table.

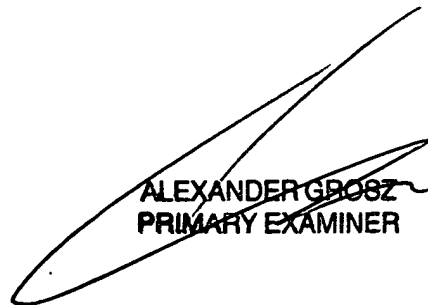

Art Unit: 3673

Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kelly, Massie, or Hayward, teaching the use of applicant's basic devices, but not the use of a safety strap, in view of De Puy, teaching the use of a conventional safety strap on a changing table for a baby.

Heyward, Hummel et al, and McLendon et al, teaching the use of bassinets in combination with changing tables, are cited as relevant art.
